PARROTS & PARAKEETS

EXTRUDED PELLET

15
kg

8 x 10 mm

DOI11001

St Laurent

PARROT FRUIT (E)

Complete extruded pellet diet suitable for the growth and maintenance of psittacidae such as: **Parrots, Large Parakeets...**

Colored beads with fruity flavors and dried fruit pieces, improving palatability.

Without added sugar (contains stevia leaves), palm oil, lactose, GMO (rate < 0.90 %) or preservative.

Excellent digestibility.

10 mm

EXTRUDED PELLET

15
kg

8 x 10 mm

DOI11002

St Laurent

PARROT NATURE (E)

Complete extruded pellet diet suitable for the growth and maintenance of psittacidae such as: **Parrots, Large Parakeets...**

Bead-shaped, without fruit pieces or coloring to avoid some birds' sorting.

Without added sugar (contains stevia leaves), palm oil, lactose, GMO (rate < 0.90 %), coloring or preservative.

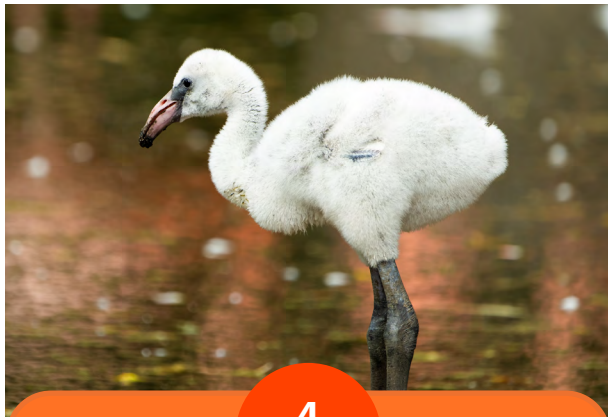

Excellent digestibility.

10 mm

EXOTIC BIRDS

POWDER

4
kg

FLAMINGO MILK (Po)

Complete powder feed suitable for raising young **Flamingos** from birth.

Without added sugar, palm oil, lactose, GMO (rate < 0.90 %), coloring or preservative.

A complete breeding protocol is available on request.

DOI21001

St Laurent

EXTRUDED PELLET

15
kg

5 x 5 mm

FLAMINGO MAINTENANCE PREMIUM (E)

Complete extruded pellet diet suitable for the growth and maintenance of **Flamingos and Ibis**.

Without added sugar, palm oil, lactose, GMO (rate < 0.90 %), coloring or preservative. High in proteins from fish and shrimp, without soy. Contains Astaxanthin (12.7 mg/kg) for a natural coloring action, naturally derived from shrimp meal.

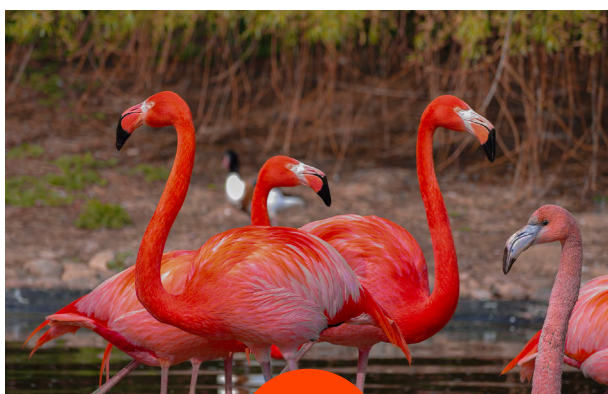

Excellent digestibility.

Also available with added Canthaxanthin for a deeper colouration: Saint Laurent Flamingo Maintenance (E) C (Ref. DOI21004).

DOI21002

St Laurent

EXTRUDED PELLET

15
kg

5 x 5 mm

FLAMINGO BREEDER PREMIUM (E)

Complete extruded pellet diet suitable for the **Flamingos and Ibis** during breeding season.

Without added sugar, palm oil, lactose, GMO (rate < 0.90 %), coloring or preservative. High in proteins from fish and shrimp, without soy. Contains Astaxanthin (12.7 mg/kg) for a natural coloring action, naturally derived from shrimp meal.

Excellent digestibility.

Also available with added Canthaxanthin for a deeper colouration: Saint Laurent Flamingo Breeder (E) C (Ref. DOI21005).

DOI21003

St Laurent

EXTRUDED PELLET

15
kg

5 x 5 mm

DOI21004

St Laurent

FLAMINGO MAINTENANCE C (E)

Complete extruded pellet diet suitable for the growth and maintenance of **Flamingos**.
Without added sugar, palm oil, lactose, GMO (rate < 0.90%) or preservative. Supplemented with Canthaxanthin (70 mg/kg) for a deep coloration, also contains Astaxanthin (8.50 mg/kg) naturally derived from shrimp meal.

Excellent digestibility.

Also available without added Canthaxanthin: Saint Laurent Flamingo Maintenance Premium (E) (Ref. DOI21002).

EXTRUDED PELLET

15
kg

5 x 5 mm

DOI21005

St Laurent

FLAMINGO BREEDER C (E)

Complete extruded pellet diet suitable for the **Flamingos** during breeding season.

Without added sugar, palm oil, lactose, GMO (rate < 0.90 %), coloring or preservative. High in fish meal. Supplemented with Canthaxanthin (70 mg/kg) for a deep coloration, also contains Astaxanthin (8.50 mg/kg) naturally derived from shrimp meal.

Excellent digestibility.

Also available without added Canthaxanthin: Saint Laurent Flamingo Breeder Premium (E) (Ref. DOI21003).

MASH

15
kg

DOI31001

St Laurent

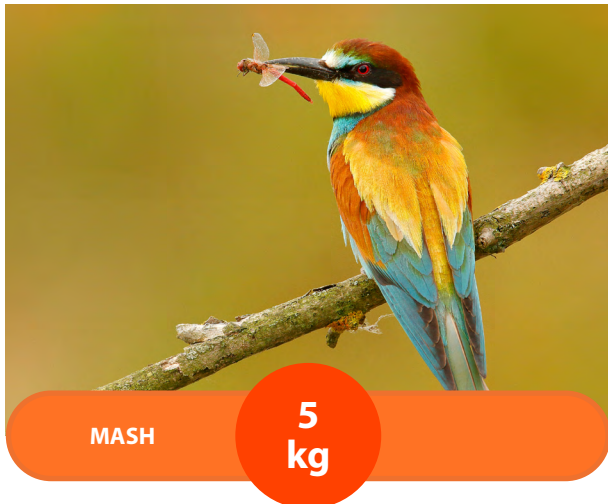

UNIVERSAL BIRD MASH (Po)

Complete mash feed suitable for frugivorous and insectivorous birds such as: **Red-Billed Leiothrix, Zosterops, Mesias, Tangaras...**

Without palm oil, lactose, GMO (rate < 0.90 %) or preservative.

Honey and oil allow a more compact consistency than powders so that the product can be shaped into balls without adding water.

MASH

5
kg

INSECTIVORE MASH (Po)

Complete mash feed suitable for insectivorous birds such as: **Eurasian Blue Tits, European Robins, Common Blackbirds, Australian King Parrots, Kakarikis...**

Without palm oil, lactose, GMO (rate < 0.90 %) or preservative.

Honey and oil allow a more compact consistency than powders so that the product can be shaped into balls without adding water.

DOI31002

St Laurent

POWDER

4.5
kg

TOUCAN & HORNBILL POWDER (Po)

Complementary powder diet suitable for the Toucans, Hornbills and some frugivorous birds during breeding season.

Higher protein content than Saint Laurent Toucan & Hornbill (E) (Ref. DOI31011), while keeping a low iron content, ideal for Toucans and Hornbills diet.

Without added sugar (contains stevia leaves), palm oil, lactose, GMO (rate < 0.90 %) or preservative.

The product turns red upon contact with water.

Also suitable for food enrichment.

DOI31010

St Laurent

EXTRUDED PELLET

10
kg

5 x 15 mm

TOUCAN & HORNBILL (E)

Complete extruded pellet diet suitable for the growth and maintenance of **Toucans and Hornbills**. Also suitable for some frugivorous, insectivorous and exotic birds.

Contains fruits for palatability. Low in iron (< 75 ppm) to suit Toucans and Hornbills diet.

Without added sugar (contains stevia leaves), palm oil, lactose, GMO (rate < 0.90 %) or preservative.

Caliber designed for a better food intake, limiting losses.

Excellent digestibility.

DOI31011

St Laurent

EXTRUDED PELLET

10
kg

5 x 8 mm

FRUIT-EATING BIRD (E)

Complete extruded pellet diet suitable for the growth and maintenance of fruit-eating birds such as: **Turacos, Exotic Frugivorous Pigeons...**

Contains fruits for palatability. Low in iron (< 75 ppm) to suit frugivorous birds diet. Without added sugar (contains stevia leaves), palm oil, lactose, GMO (rate < 0.90 %) or preservative.

Caliber designed for a better food intake, limiting losses.

Excellent digestibility.

kg

5 mm

FLAMINGO REGULAR

This special complete floating feed is perfectly tailored to the needs of flamingos during the cold winter season, ensuring your animals are well cared for all year round.

DOI22005

EXTRUDED PELLET

15
kg

5 mm

FLAMINGO PREMIUM

This special complete floating feed enhances the vibrant colors of your flamingos with high-quality carotenoids

DOI22006

IBIS

Special complete floating feed for seabirds with the highest nutritional demands, thanks to an exceptionally high protein content of 45%.

Ideal for the daily feeding of animals that consume a high-protein diet in their natural habitat. A must-have for "fish eaters."

DOI22007

FOWL

EXTRUDED PELLET

15
kg

4 x 4 mm

DOI51001

St Laurent

GALLIFORM STARTER (E)

Complete extruded pellet diet suitable for raising young ornamental fowl such as: **Pheasants, Partridges, Turkeys, Bustards...**

Optimal energy, proteins, fibers, vitamins and minerals content.

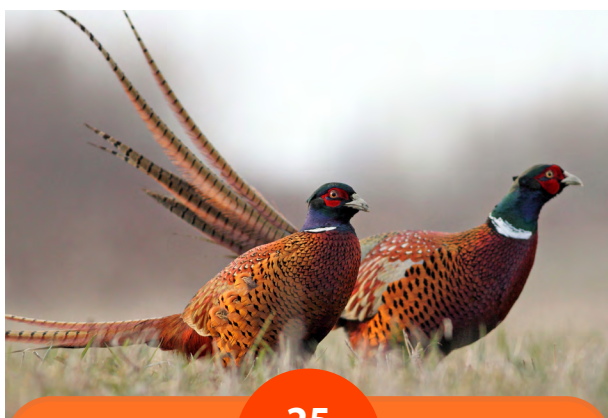

Without added sugar, palm oil, lactose, GMO (rate < 0,90 %), coloring or preservative.

Excellent digestibility.

IMPORTANT: This diet must not be fed to birds intended for human consumption.

4 mm

PELLET

25
kg

4 x 8 mm

DOI51002

St Laurent

GALLIFORM MAINTENANCE (P)

Complete pellet diet suitable for growth and maintenance of ornamental fowl such as: **Pheasants, Partridges, Turkeys, Bustards...**

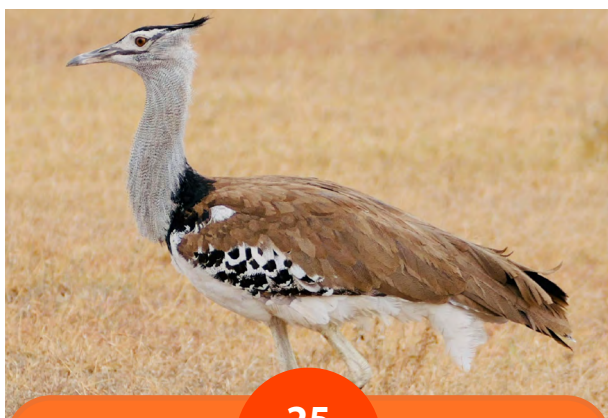

Optimal energy, proteins, fibers, vitamins and minerals content.

Without added sugar, palm oil, lactose, GMO (rate < 0,90 %), or coloring.

IMPORTANT: This diet must not be fed to birds intended for human consumption.

ANATIDAE

EXTRUDED PELLET

15
kg

2 mm

DOI22000

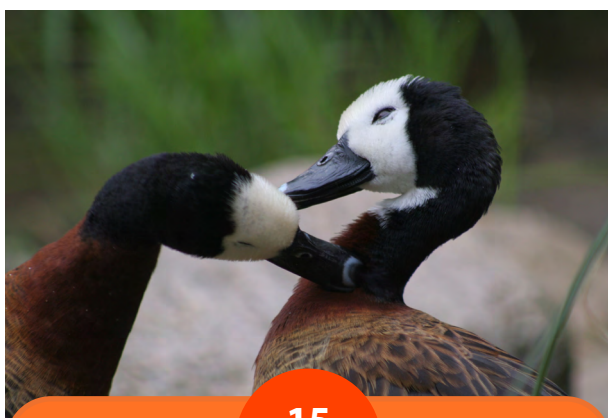

MICRO REGULAR

Floating special rearing feed for all aquatic ornamental poultry species - especially for rearing **tree ducks** and **dabbling ducks**.

This well-balanced complete feed with 20% protein content is particularly impressive due to its good tolerance and forms the basis for visibly healthy growth from day one.

Made exclusively from wholesome and selected raw materials, Lundi Micro Regular is also ideal for the year-round nutrition of waterfowl.

EXTRUDED PELLET

15
kg

2 mm

DOI22001

MICRO

Floating special rearing feed for all aquatic ornamental poultry species – even for problem eaters. This ideally balanced complete feed with 35% protein provides the foundation for healthy growth and lifelong vitality.

Made exclusively from wholesome and selected raw materials, Lundi Micro is also ideal for the year-round nutrition of waterfowl.

EXTRUDED PELLET

15
kg

5 mm

DOI22002

REGULAR MAINTENANCE

Lundi Regular, with a protein content of 20%, valuable spirulina, and high-quality by-products, is the optimally balanced maintenance feed for all types of aquatic ornamental poultry. It is particularly suitable for dabbling ducks and tree ducks, which do not require a very high protein content.

Lundi Regular contains all the minerals and vitamins essential for the animals in their full form. Therefore, it is also suitable as breeding feed.

RATITES

PELLET

20
kg

4 x 15 mm

RATITE PREMIUM (P)

Complete pellet diet suitable for ratites such as: **Ostriches, Emus, Rheas, Cassowaries...**

High in essentials vitamins and minerals. Controlled energy and protein content.

This composition allows it to be used for growth, maintenance and during the breeding season.

Without added sugar, palm oil, lactose, GMO (rate < 0.90 %) or coloring.

15 mm

DOI71003

St Laurent

MULTI-SPECIES

EXTRUDED PELLET

15
kg

2 mm

DOI22000

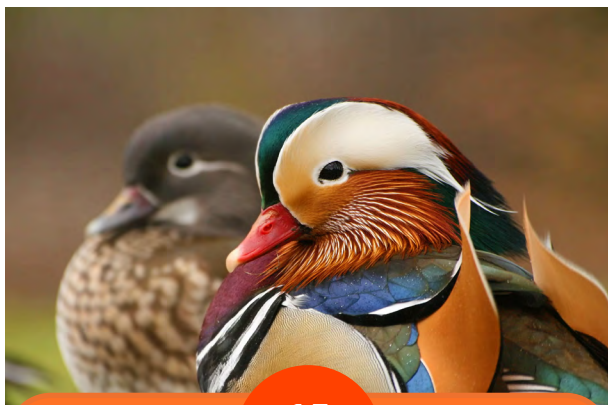

MICRO REGULAR

Special floating rearing feed for all species of ornamental aquatic poultry, particularly suitable for rearing shelducks and green-winged teals.

This complete, balanced feed with a protein content of 20% stands out for its excellent digestibility and provides the foundation for visibly healthy growth from day one.

Made exclusively from healthy, carefully selected raw materials, Lundi Micro Regular is also ideal for feeding waterfowl all year round.

EXTRUDED PELLET

15
kg

2 mm

DOI22001

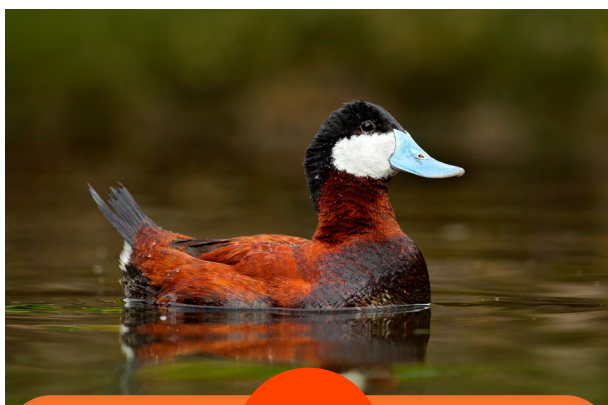

MICRO 35

Special floating rearing feed for all species of ornamental aquatic poultry, even for the pickiest eaters.

This complete, ideally balanced feed, with a protein content of 35%, provides the foundation for healthy growth and lifelong vitality.

Made exclusively from healthy, carefully selected raw materials, Lundi Micro is also perfect for feeding waterfowl throughout the year.

EXTRUDED PELLET

15
kg

5 mm

DOI22002

REGULAR MAINTENANCE

Lundi Regular, with a protein content of 20%, valuable spirulina, and high-quality by-products, is an optimally balanced maintenance feed for all kinds of ornamental aquatic poultry.

It is particularly well-suited for ducks that do not require a very high protein intake.

Lundi Regular provides all essential minerals and vitamins in their complete form, making it equally suitable as a rearing feed.
